

LED Highbays

Sonar G2

Features

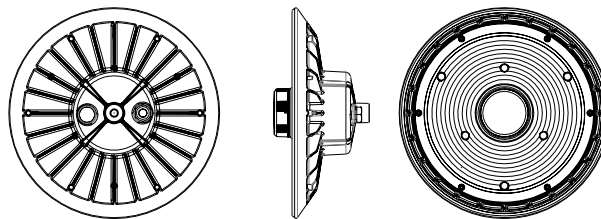

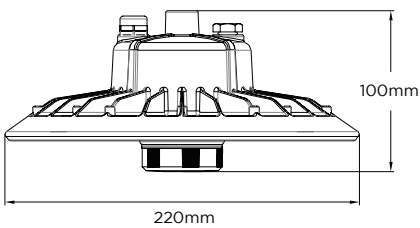

- High efficacy at 220lm/W for efficient performance.
- Compact, space-saving design.
- Optional sensor and remote control available.
- Simple, wire-free sensor installation.
- Dimmable sensor with memory function controlled remotely.

The Sonar Highbay G2 represents the latest technology and highest efficacy of 220lm/W for industrial, commercial and retail lighting. The compact design allows for ease of installation across a range of settings, with the inclusion of an optional sensor.

The optional plug and play motion and daylight sensor offers additional energy-savings, is easily installed (no wiring required) and conveniently controlled from the ground via a remote control.

Sensor and Sensor Remote Control sold separately

Specifications

Power factor	>0.9
CRI	>70
Beam angle	110°
Sensor	Optional
Dimmable	Via sensor
IP rating	65
Lifetime (L70)	>54,000hrs
Warranty	5 years parts
